The parameters for adjusting the carburetor on a Mercury outboard involve both the idle speed screw that controls the motor's speed at idle, and the mixture screw that controls the fuel-to-air ratio. Adjusting both of these requires that you have the motor running. While the adjustments seem minor, both affect the ...

1965-1989 Mercury Outboard Idle Mixture Adjustment
Carb kits or carburetor rebuild kits are among the most frequently purchased outboard maintenance parts. New gaskets, O-rings, and fuel inlet needles and seats are often required to return a poorly performing motor to good working order. Some carb kits contain floats and some don't. The main carb jets are not in all kits, either, so it's a good idea to look at a complete engine diagram to see ...

Carburetor Kits - Mercury Mariner Outboard - Mercury ...
Original Factory Mercury Marine Stators. Your outboard stator is the "powerhouse" of your outboards ignition system. Most Mercury Outboard Stators perform two important functions 1. They provide voltage to your switchbox or CDM's. 2. They charge your vessel's battery(s). A faulty or failing stator can cause one or more symptoms. 1.
