The re-enchantment of the world: McDowell, Scruton and Heidegger. In a recent discussion of disenchantment and re-enchantment Charles Taylor suggests that it is possible to respond to the disenchanted view of the world, in which meaning and value are understood as subjective projections, by articulating a re-enchanted sense of nature or the universe from the perspective of human ‘agency-in-the-world’, in which meaning and value are objective.

The term "re-enchantment" describes a reawakening to the depth of soul that embraces us and the world, as is well described by Thomas Moore in *The Re-Enchantment of Everyday Life* ( 1996). But first we have to extract ourselves from the old industrial worldview that believes it has abolished the credibility of enchantment and depends only on constructs such as subject and object.

The *Re-Enchantment of the World* is an interdisciplinary volume that challenges the long-prevailing view of modernity as disenchanted. There is of course something to the widespread idea, so memorably put into words by Max Weber, that modernity is characterized by the progressive disenchantment of the world.

The concluding chapter draws the many strands of the research together around 'the art of re-enchantment'. Early Music is explained as a process of re-enchanting classical music, and in so doing further clues as to why the movement took off when it did are revealed. Reflecting on (doing) art more generally, attention is drawn to the need for re-connection - with nature, knowledge,

The Reenchantment of the World is a perceptive study of our scientific consciousness and a cogent and forceful challenge to its supremacy. Focusing on the rise of the mechanistic idea that we can know the natural world only by distancing ourselves from it, Berman shows how science acquired its controlling position in the consciousness of the West.
