Much of its collection was seeded by Project Gutenberg back in the mid-2000s, but has since taken on an identity of its own with the addition of thousands of self-published works that have been made available at no charge.

Honda Cb400 Super Four Hyper

The Honda CB400 Super Four is a CB series 399 cc standard motorcycle produced by Honda at the Kumamoto plant from 1992 to the present. The CB400 embodies the typical Universal Japanese Motorcycle produced through the 1970s, updated with modern technology. To this end, the bike has a naked retro design, paired with a smooth inline-four engine. Originally a Japan-only bike, it was later also available in SE Asia, and from 2008 in Australia.

My 2001 CB400 Super Four was the older carb design but new enough to have the V-Tech engine. They started making fuel injected Super Fours in 2008. This was a great bike because it has plenty of power, it's small and light, and easily lane splits in heavy traffic.
