It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' texbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

1999 HONDA CR500R. It was once the king of the Open class. But then the kingdom slowly withered away. The CR500R remains as a current artifact in the fossil record, showing us how much dirt bikes have changed in 10 or so years. Compared to modern MX bike, it's cumbersome and sometimes scary. At least it's less of a brute than the KX500.
