### Maurer School of Law at Indiana University Bloomington

where B denotes rate of responses (e.g., responses per minute) at either alternative (denoted by subscripts 1 and 2) and R denotes rate of reinforcement (e.g., reinforcers per minute) at said alternatives. For example, if response B 1 resulted in twice as many reinforcer deliveries relative to B 2 (i.e., R 1 is double the size of R 2), the matching law predicts twice as many B 1 responses.

Jurisprudence, Science or philosophy of law. Jurisprudence may be divided into three branches: analytical, sociological, and theoretical. The analytical branch articulates axioms, defines terms, and prescribes the methods that best enable one to view the legal order as an internally consistent, logical system. The sociological branch examines the actual effects of the law within society and the ...
