The Nazi Science That Fed the Apollo 11 Moon Landing | Time

The Verein für Raumschiffahrt ("VfR", English: Society for Space Travel) was a German amateur rocket association prior to World War II that included members outside Germany. The first successful VfR test firing with liquid fuel (five minutes) was conducted by Max Valier at the Heylandt Works on January 25, 1930; and additional rocket experiments were conducted at a farm near Bernstadt, Saxony.

Verein für Raumschiffahrt - Wikipedia

In the United States, the presence of Nazi-era German rocket scientists at American laboratories — most notably Wernher von Braun — has been well-documented. Thanks to their assistance, the United States would test its first ballistic missile at the Redstone arsenal in Alabama in 1953. The eventual success of the American rocket program depended heavily upon the legacy of Nazi rocketry.
