those carrying low debt levels. Historically, several leverage ratios have been developed to measure the amount of debt a company bears.

## **Bet on These 5 Low Leverage Stocks to Escape a Debt Trap**

Debt-trap diplomacy describes diplomacy based on debt carried out in the bilateral relations between countries with an often alleged negative intent. The creditor country intentionally extends excessive credit to a debtor country with the alleged intention of extracting economic or political concessions from the debtor country when it becomes unable to honour its debt. The conditions of the loans are often not made public and the borrowed money commonly pays contractors from the creditor country
